

Majestic 8-day Cruise "Naturalist"

(North Seymour, Santa Cruz, Santiago, Bartholomew, Fernandina, Isabela, Santa Cruz)

Day 1: Saturday

NORTH SEYMOUR ISLAND

In the morning: Baltra Airport Arrival

Morning flight from Quito or Guayaquil to Baltra, Galapagos Islands. After passing through immigration and baggage claim, you will be met by a Majestic staff member and brought into a private bus to start your adventure in Galapagos.

In the afternoon: North Seymour

In North Seymour you may see Galapagos sea lions, blue-footed boobies, and magnificent frigate birds which are abundant on this island. North Seymour was formed by a series of submarine lava flows containing layers of sediment that were uplifted by tectonic activity. The island is characterized by its arid vegetation zone.

North Seymour Island	
Possible Activities:	Dinghy ride & hiking (1.5 miles / 2.41 km)
Difficulty:	Moderate/Difficult
Type of Landing:	Dry Landing
Highlights & Animals:	Land & marine iguanas, frigate birds, blue-footed boobies, sea lions; snorkeling: rays, reef sharks, fish, garden eels.

Day 2: Sunday

SANTA CRUZ AND SANTIAGO ISLANDS

In the morning: Dragon Hill

The visitors' site at Dragon Hill is located in northwestern Santa Cruz Island and consists of a 1,600 m long trail that runs through three different environments. The beach is very rocky. At high tide it's a nice place for snorkeling. At this visiting site you can find vegetation of the typical intertidal zone and dry zone.

Dragon Hill, Santa Cruz Island	
Possible Activities:	Panga ride & short hike
Difficulty:	Easy
Type of Landing:	Dry Landing
Highlights & Animals:	Frigatebirds, herons, blue-footed boobies, rays, reef sharks

In the afternoon: Chinese Hat Islet

This small islet is located near the southeast coast of Santiago Island. Its name comes from the distinct shape of the islet's summit. This small islet is a great location to view many geological formations such as lava tunnels and lava flows. Some of the lava flows were formed underwater and subsequently raised above sea level. The presence of coral heads on the lava flow indicates this phenomenon.

Chinese Hat Islet, Santiago Island	
Possible Activities:	Hike (1,9 miles / 3 km)
Difficulty:	Easy
Type of Landing:	Wet Landing
Highlights & Animals:	Lava formations, great site for snorkeling with an abundance of marine species such as sea lions, sharks, rays and penguins.

Day 3: Monday

SANTIAGO AND BARTHOLOMEW ISLANDS

In the morning: Sullivan Bay

You will visit Sullivan Bay located on the southeast part of Santiago. This place is interesting for its geology because the area is covered by lava flows. This place has elevations in the form of small volcanoes formed by the lava flows.

Sullivan Bay, Santiago Island	
Possible Activities:	Hiking
Difficulty:	Easy/Moderate
Type of Landing:	Dry Landing
Highlights & Animals:	Lava flows, small volcanoes

In the afternoon: Pinnacle Rock

You will head to Bartholomew Island where the famous Pinnacle Rock is found. Bartholomew consists of an extinct volcano with a variety of red, orange, black and even green volcanic formations. We will take a trail of stairs to the summit of the volcano (about 30 or 40 minutes) where you will enjoy one of the best views of the islands! You will also visit a small, beautiful beach surrounded by the only vegetation found on this barren island. The beach is perfect for snorkeling where you may even see and swim with Galapagos penguins.

Pinnacle Rock, Bartholomew Island	
Possible Activities:	Dinghy ride, snorkeling & hiking (1.2 miles/ 2 km)
Difficulty:	Moderate/Difficult
Type of Landing:	Dry & Wet Landings
Highlights & Animals:	Pinnacle Rock, panoramic view, moonlike landscape, penguins, pioneer plants, lava cactus; snorkeling: penguins, reef sharks, rays, and great colorful fish.

Day 4: Tuesday

FERNANDINA AND ISABELA ISLANDS

In the morning: Espinoza Point

Crossing the Bolivar Channel that divides Isabela and Fernandina Islands, you will land at Espinoza Point, and after walking past a colony of marine iguanas and a group of sea lions, you will reach the island's highlight: the flightless cormorant nesting site. This area also provides a great opportunity to see the Galapagos hawk.

Espinoza Point, Fernandina Island	
Possible Activities:	Hike (approximately 1.2 miles / 2 km)
Difficulty:	Moderate
Type of Landing:	Dry Landing
Highlights & Animals:	Flightless cormorant, marine iguanas, 'a'ā lava, sea lions, penguins, active volcano "La Cumbre".

In the afternoon: Urbina Bay

Urbina Bay is located at the base of Alcedo Volcano on the west coast between Tagus Cove and Elizabeth Bay. This area experienced a major uplift in 1954 causing the land to rise over 16 feet. The coast expanded half a mile out leaving marine life stranded on the new shore. This area is also a great place for snorkeling.

Urbina Bay, Isabela Island	
Possible Activities:	Snorkeling, dinghy ride & hike, 2 trails: short (0.6mi/1 km), long (1.9mi/3km)
Difficulty:	Easy/Moderate
Type of Landing:	Wet Landing
Highlights & Animals:	Land iguanas (the biggest in the Galapagos), hawks, coral reef, giant tortoises; snorkeling: turtles, rays, tropical fish

Day 5: Wednesday

ISABELA ISLAND

In the morning: Elizabeth Bay

Elizabeth Bay is located on the east coast of Isabela Island. The bay contains many islets, which can be visited by dinghy. Penguins and blue-footed boobies can be spotted on the rocky islets. With an abundance of marine life and clear water, the area is perfect for snorkeling and viewing schools of colorful fish, sea lions, and perhaps even sharks.

Elizabeth Bay, Isabela Island	
Possible Activities:	Hiking (1.5 miles / 2 km) and dinghy ride
Difficulty:	Easy/Moderate
Type of Landing:	Wet Landing
Highlights & Animals:	Mangrove forest (unique in Galapagos), sea turtles, penguins, rays, herons and sea lions

In the afternoon: Moreno Point

Moreno Point is located southwest of Elizabeth Bay. Here a dry landing onto what was once owing lava is possible. The lava has left craters in its wake which formed crystal tide pools. By looking into the pools, you can peer into another world as the marine life drifts by your window. In the brackish pools of this area, you may see pink flamingos, white-cheeked pintails, and common gallinules. If you look carefully into the pools, you may see white-tip reef sharks and some sea turtles.

Moreno Point, Isabela Island	
Possible Activities:	Snorkeling, panga ride & hike (1.2 miles / 2km)
Difficulty:	Moderate/Difficult
Type of Landing:	Dry Landing
Highlights & Animals:	Flamingos, gallinules, pintail ducks, turtles, white-tip reef sharks.

Day 6: Thursday

ISABELA ISLAND

In the morning: Tintoreras Islet

Tintoreras Islet, located a short distance from Puerto Villamil, is home to a great variety of wildlife. Its turquoise, crystalline waters are inhabited by white-tip reef sharks, Galapagos penguins, marine turtles and sea lions. One of its beaches surrounded by mangroves is one of the few sites where marine iguanas can reproduce successfully.

Tintoreras Islet, Isabela Island	
Possible Activities:	Dinghy ride and hike
Difficulty:	Easy
Type of Landing:	Dry Landing
Highlights & Animals:	White-tipreef sharks, penguins, marine turtles, sea lions, marine iguanas

Afterwards: Sierra Negra Volcano

Visit to the Sierra Negra Volcano, which is the largest basaltic caldera in the Galapagos with a diameter of 6.2 miles (10 km). The site offers impressive views and the opportunity to observe up to seven species of finches and a rich display of vegetation. The north side of the caldera provides evidence of its most recent volcanic activity in 2005.

Sierra Negra Volcano, Isabela Island	
Possible Activities:	Hiking, walking
Difficulty:	Difficult
Type of Landing:	Dry Landing
Highlights & Animals:	Basaltic caldera, stunning views, finches

In the afternoon: Arnaldo Tupiza Breeding Center

Arnaldo Tupiza Breeding Center is located about one mile (1.5 km) from Puerto Villamil. In this breeding center, populations from South Isabela Sierra Negra Volcano, Cerro Azul, Cazuela, Cinco Cerros, Roca Union, San Pedro, Tables and Cerro Paloma have been bred in captivity. In total there are 330 juvenile and adult tortoises.

Arnaldo Tupiza Breeding Center, Isabela Island	
Possible Activities:	Walking
Difficulty:	Easy
Type of Landing:	Dry Landing
Highlights & Animals:	Two of the five species of the giant tortoise

Afterwards: Wetlands

The Wetlands of Isabela Island are located just outside of Puerto Villamil. They consist of lagoons, swamps, and mangroves and are home to a variety of unique bird species such as common stilts, whimbrels, white-cheeked pintails, and gallinules. The Wetlands can be visited on foot via a path through the swamps.

Wetlands, Isabela Island	
Possible Activities:	Hiking
Difficulty:	Easy
Type of Landing:	Dry Landing
Highlights & Animals:	Giant mangroves, shore birds, flamingos

Day 7: Friday

SANTA CRUZ ISLAND

In the morning: Fausto Llerena Breeding Center

You will visit “Fausto Llerena” Giant Tortoises Creeding Center in Puerto Ayora, Santa Cruz Island, where giant tortoises are bred in captivity; this is home to tortoises ranging from 3-inches (new hatchlings) to 4-feet long adults. Subspecies of the giant tortoises interact with one another, and many of the older tortoises are accustomed to humans stretching out their heads for a photo opportunity. The babies are kept until they are about four years-old and strong enough to survive on their own.

Fausto Llerena Breeding Center, Santa Cruz Island	
Possible Activities:	Walking
Difficulty:	Easy
Type of Landing:	Dry Landing
Highlights & Animals:	Giant tortoises, finches, Galapagos rails

In the afternoon: Tortuga Bay

The white-sand beach of Tortuga Bay gets its name from the black sea turtles that lay their eggs here. Other species to be seen include white-tip sharks and marine iguanas and the salt lagoon behind the mangroves is often frequented by flamingos. The site is excellent for bird watching and for enjoying a relaxing swim.

Tortuga Bay, Santa Cruz Island	
Possible Activities:	Swimming, snorkeling, surfing, bird watching
Difficulty:	Easy
Type of Landing:	Dry Landing
Highlights & Animals:	Beautiful white sandy beach, Galapagos green turtles, white-tip sharks, pelicans, ground finch

Day 8: Saturday

SANTA CRUZ ISLAND

In the morning: Bachas Beach

Bachas Beach is located on the north shore of Santa Cruz and is a beach for swimming. One of the few remnants of the U.S. World War II presence in the Galapagos, a floating pier, can be seen here. You may see flamingos, Sally Lightfoot crabs, hermit crabs, black-necked stilts, and whimbrels. Sea turtles also nest on the beach.

Bachas Beach, Santa Cruz Island	
Possible Activities:	Hiking
Difficulty:	Easy
Type of Landing:	Wet Landing
Highlights & Animals:	World War II remnants. Sally Lightfoot crabs, hermit crabs, black necked stilts, whimbrels, sea turtles.

Afterwards: Baltra Airport Departure

After this final visit, you will be transferred to the Baltra airport in time for your flight back to the mainland.
