

Requirements for International Passengers Arriving in Ecuador (effective as of October 20, 2022)

Any person entering Ecuador must comply with the following regulations established by the National Health Authority:

REGULAR REQUIREMENTS TO ENTER ECUADOR

- Original passport (valid for at least 6 months).
- Medical and travel insurance (both insurances are mandatory).

NEW REQUIREMENTS DUE TO COVID-19

Biosafety:

- Maintain a physical distance of 2 meters.
- Frequent handwashing with soap and water for at least 40 seconds.
- Hand disinfection for at least 20 seconds, with 70% gel alcohol.
- Mandatory and correct use of the face mask.
- Continuously cleaning of high-touch surfaces.
- Ensure air circulation in closed or small spaces, preferably with natural ventilation.
- Avoid participating in meetings of more than 10 people in closed places.
- If the meeting is necessary, it must be with less than 10 people, ensuring the ventilation of the place.

Passenger requirements:

- Any person who enters mainland Ecuador by international air must submit the Traveler's Health Declaration digitally when boarding the airline, it is available at the following link: <https://declaracionsalud-viajero.msp.gob.ec/>, if the platform is not available, you must submit the physical form.

- After reviewing the report provided by the Technical Committee directed by the Ministry of Health, the National Authority for Emergencies decided to delete the criteria for entering continental and insular Ecuador beginning Thursday, October 20th, 2022 at 00h01. With this decision, the certificate or vaccination card, as well as the PCR or antigen test, are no longer mandatory for international tourists arriving at our destination through air or land borders.
- If there is an increase in Covid 19 cases in any country, recommendations for travelers from that nation might be implemented in a targeted manner.
- It is important to remember that the "Traveler's Health Declaration" process remains the same and must be completed digitally prior to boarding. This report is available at the following link: <https://declaracionsalud-viajero.msp.gob.ec/>; if you are unable to use the platform, a paper form must be submitted.
- It is worth mentioning that travelers who complete the digital form are no longer required to produce the form to the Ministry of Health at the point of entry. These measures are the results of the Ecuadorian National Government's efforts to encourage a sustainable recovery of multiple economic activities as well as a boost to the Ecuadorian touristic sector so that more visitors may come to our nation.
- Invoice or Voucher of services of the tours contracted in Ecuador.

TO CONSIDER

Protocols will be constantly evaluated and may be modified according to the evolution of the health situation in Ecuador.
